

SAVEONENERGY SMALL BUSINESS LIGHTING

TAKE ADVANTAGE OF UP TO \$2000 TO IMPROVE YOUR LIGHTING COSTS!

WHAT?

A turn-key solution for your lighting needs. The Small Business Lighting program provides a free on-site lighting assessment of your facility and provides up to \$2000 in incentives towards eligible energy efficient lighting upgrades

WHO?

Eligible participants must:

- Have an average annual usage of less than 100kW;
- Previous participants of Power Saving Blitz 2008-2010 or Direct Lighting (aka Small Business Lighting 2011-2015) are not excluded.

What do you need to do to find out if you qualify?

- Check if this program is offered by your electricity provider;
- Determine your average annual demand to see if it is less than 100kW.

HOW?

1. Contact your local electricity provider/ local distribution company (LDC):

- Your electricity provider will help determine your eligibility and arrange an appointment to get started;
- To see if this program is being offered by your electricity provider check the [My Programs](#) link and enter your postal code.

2. Assess and review your options

- After you receive your onsite assessment results and recommendations you can decide whether or not to move forward with the lighting upgrades;
- Your LDC will assist you with all the paperwork and arrangements.

3. A licensed contractor will install the new lighting

- Incentives of up to \$2,000 to cover costs of materials and labour;
- Check with your LDC to see if you are eligible for additional incentives above \$2,000.
